FIRST EYE WITNESS

--colors of explosions and of bodies- smells- lack of air

Hassan Abdu Allah taking pictures for the general security council for Hezbollah at beer/ well **Al Abd at the Rouais zone**, the night of 13th of July: “at the fall of one of the missiles *the area glowed for seconds before we heard the sound of the blast*. There were white little explosions within the orange color that resulted from the main explosion”. Abdu Allah reported a “*strange smell*” on the following day at the explosion site, and of the great hole of about 12 m in diameter.

Abdu Allah was also present at the bombing of **Kafr Shayma**:

“I felt as if the oxygen has been sucked out from the air for a while, when I was near the Pepsi Lab in Shewayfat, and I had difficulties in breathing for a while.

Abdu Allah when on the night of the 25th of July a 3 tons missile was dropped on the **Safeer area** saw *grey color powder*: “*the concrete does not produce such a fine powder*”. Next day when he went to photograph the collapsed building he could not enter the place “without a mask due to the *strange smell*”.

- **FIRST EYE WITNESS -colors and smells**
- One of the **correspondent for a foreign agency** in Lebanon (asking not have his name mentioned) reports that the dawn of the **13th July**, in the first raid on **Beirut south** *a yellow light* has drawn his attention. *“I never saw that color before, despite of covering several wars”*.
- Another **correspondent for a foreign agency** in Beirut (asking not to have his name mentioned) noticed a strange smell. *“It is not the gunpowder smell nor the explosive materials that we know”*. This occurred in the **Sour zone** in most of the bombing. He added that *“once we arrived to the incursion place, we suffered symptoms such as severe coughing and vomiting”*.
- **Bilal Kiblan** (the ambassador) strictly says that *“ the colors in the explosions are not normal and he saw also a strange black color: “This is not the color of fire that we know, and there is really no fire, only massive destruction. The color was a fluctuating black”*. Bilal also talks about *“ a grey color powder” that he has started to notice since the 17th of July.*

FIRST EYE WITNESS -blackened bodies, swollen

Hassan Ammar indicates that the corpses not buried under the debris of buildings look like “ *burned corpses and are not burned, at the same time. The burns is not what we know usually*”. Ammar adds: ” the bodies of the martyrs stay as was alive but undressed blackened”

Also the foreign agency correspondent in Sour (who asked not to have his name mentioned) said: ”*the corpses are awkwardly black in color. There are many martyrs with blisters on their faces or their skin swollen with a great blister like a balloon*”.

and**lack of external wounds**

He also talks of wounded **Samir Faour** who got shot on his motorbike on the **23rd of July** “*his face was covered with blood without him having any wounds*” **from Alsafir**

Mohamed Sallam, board director of ambulances in Sour after an air raid which destructed an house in the **Bazoueya** village: ”I found under the debris a 9 months child and when undressed him in order to see if wounded, *his body turned black immediately as soon as it had a contact with air*”
